SOLA NEL SOLE Description

Sola nel Sole has houses of different squarings surrounded by the green of the gardens, view of the sea or of the mountains. The houses which have two to six bed places, are equipped with kitchen or kitchenette, bathrooms with their autonomous heating plant.

Each house has the name of the Nymph, divinity of the nature of the ancient Greek world: Anfitrite, Aretusa, Euridice, Psamate, Leucotea, Galatea, Tetide, Evarne, Glauce, Cimodoce, and each one exhibits the work art her dedicated.

From the small terraces, windows and balconies there open striking views of the surrounding green, of the mountain which dominates the landscape and of the sea the horizon.
